DISEÑO PERFECTO EN TU PROYECTO...

ALTA CALIDAD

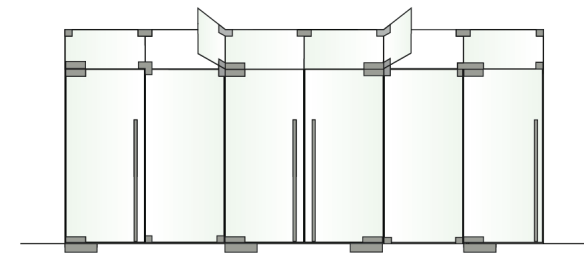

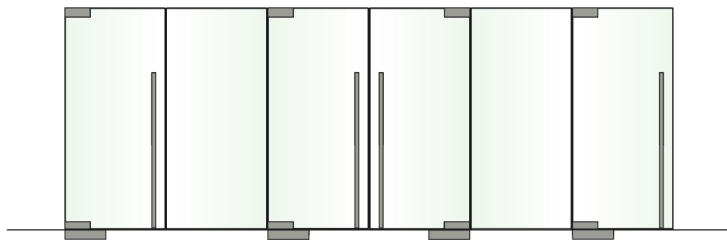

HERRAJES - BISAGRAS - CONECTORES - FRENOS DE PISO - CERRADURAS - TIRADORES - ARAÑAS

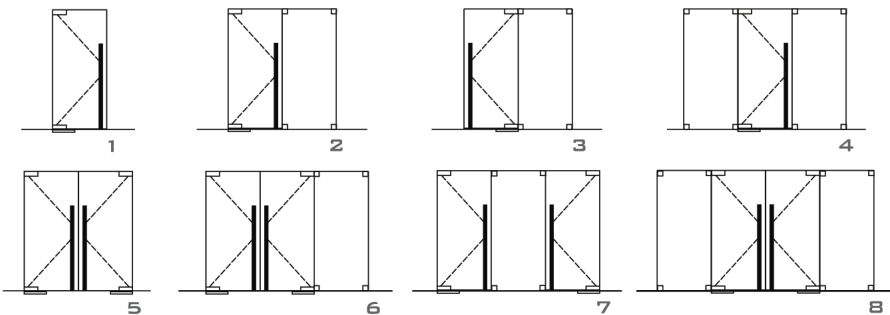

- Aplicable para espesores de cristal de 8, 10 y 12mm
- Material: Acero Inoxidable 304
- Acabado: Satinado y Pulido
- Capacidad de carga de puerta: 75Kg. / 80Kg.

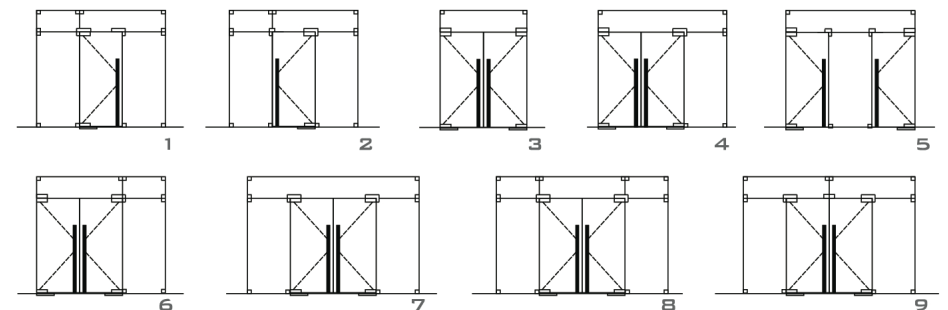

- Aplicable para espesores de cristal de 8, 10 y 12mm
- Material: Acero Inoxidable 304
- Acabado: Satinado y Pulido
- Capacidad de carga de puerta: 75Kg. / 80Kg.

INSTALACIONES TÍPICAS

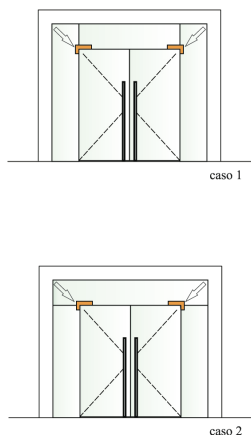

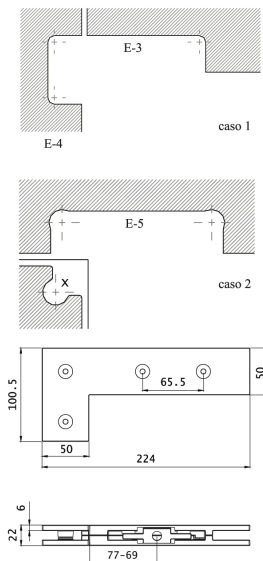

INSTALACIONES TÍPICAS

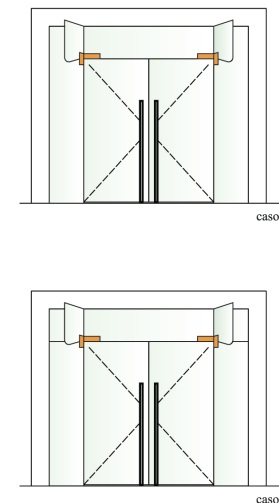

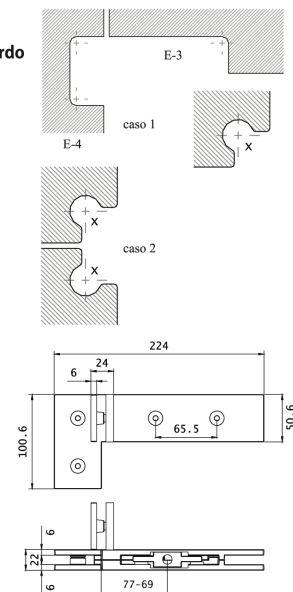

DR-PF4010

■ Pieza de rotación entre cristal fijo y sobreluz
 Disponible para los lados derecho e izquierdo

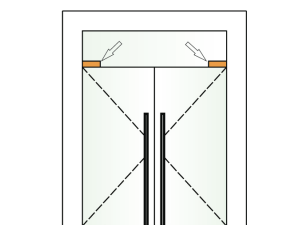

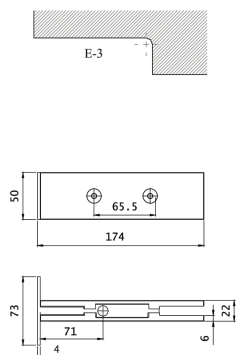

DR-PF4310

■ Pieza de rotación con contraviento alto
 Disponible para los lados derecho e izquierdo

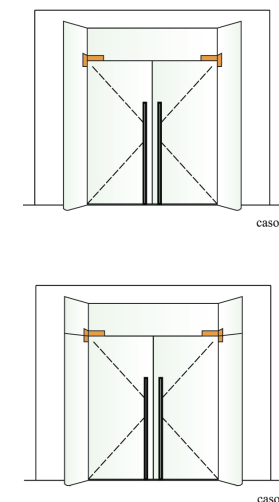

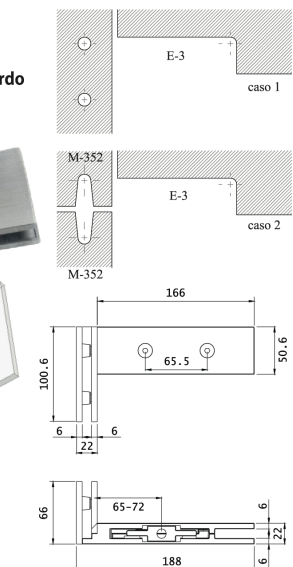

DR-PF4030

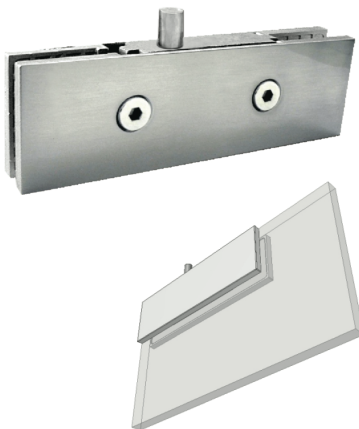

■ Pieza de rotación y fijación de sobreluz
 Disponible para los lados derecho e izquierdo

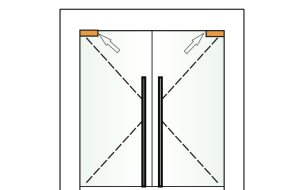

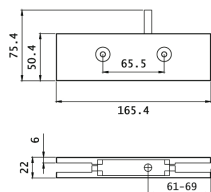

DR-PF4140

■ Pieza de rotación y unión entre sobreluz y cristales fijos en quiebre a 90°
 Disponible para los lados derecho e izquierdo

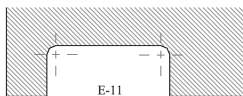

E-11

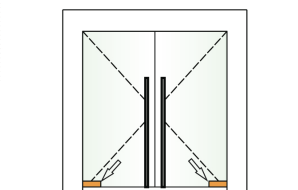

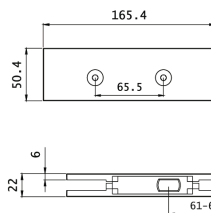

DR-PF1101

■ Bisagra alta
Aplicable para los lados Derecho e Izquierdo
invirtiendo el nucleo de SS304

E-11

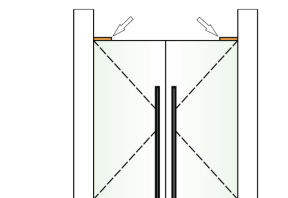

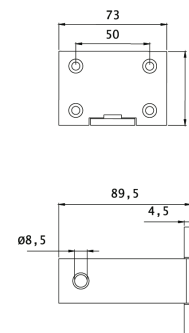

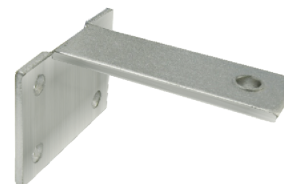

Núcleo disponible para pernos:

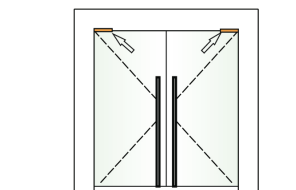

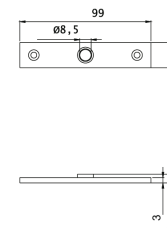

DR-PF132

■ Bisagra baja
Aplicable para los lados Derecho e Izquierdo
invirtiendo el nucleo de SS304

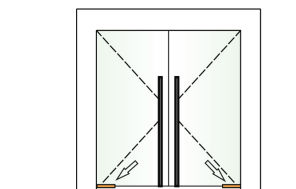

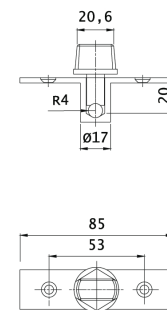

DR-PF4230

■ Pieza de rotación para puerta sin sobreluz

DR-PF4523

■ Base alta de rotación

Núcleo disponible para pernos:

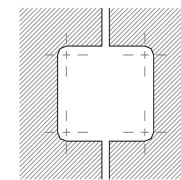

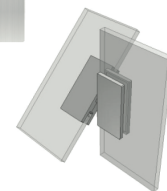

DR-PF4631

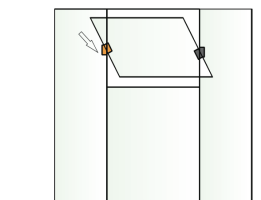

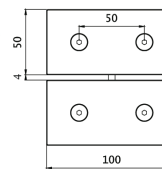

■ Base baja de rotación

- Aplicable para espesores de cristal de 6, 8 y 10mm
- Material: Acero Inoxidable 304
- Acabado: Satinado y Pulido

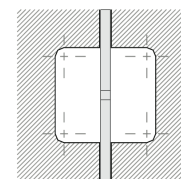

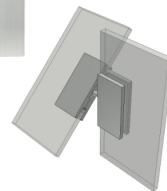

E-15 E-15

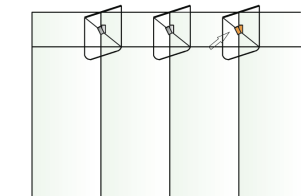

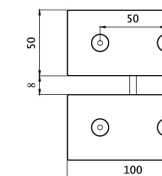

DR-PF1591

- Pivote y cristal fijo

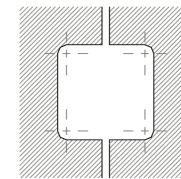

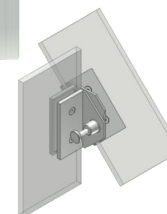

E-15 E-15

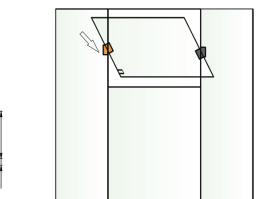

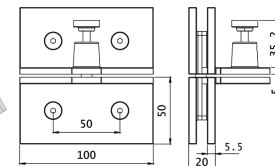

DR-PF1593

- Pivote horizontal con contraviento intermedio y pin cilíndrico

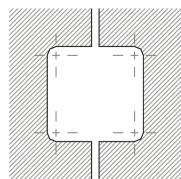

E-15 E-15

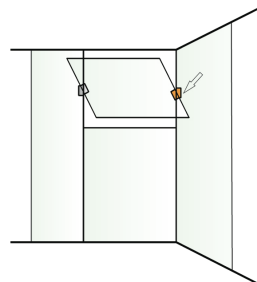

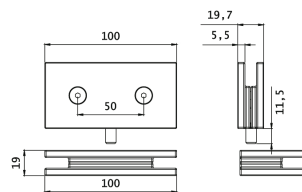

DR-PF1594

- Pivote con seguro de posiciones entre cristales fijos

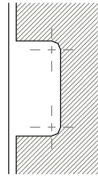

E-15 E-15

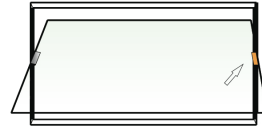

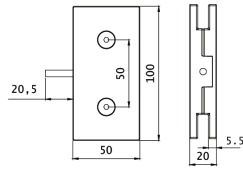

DR-PF1590

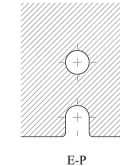

- Pivote y cristal fijo en ángulo

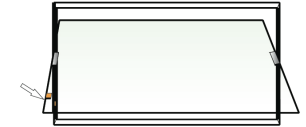

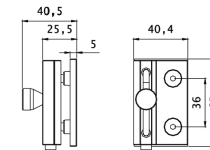

E-15

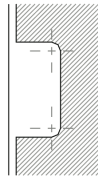

DR-PF1596
 ■ Pivote y base de rotación

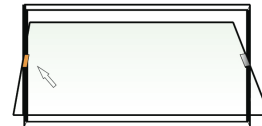

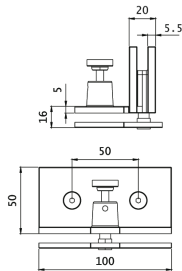

E-P

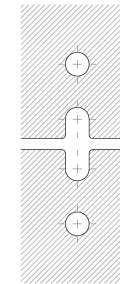

DR-PF6611
 ■ PIC
 Picaporte al muro

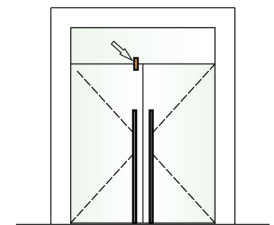

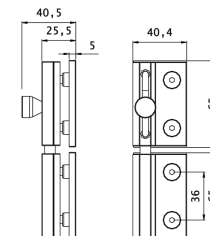

E-15

DR-PF1598
 ■ Pivot con seguro de posiciones

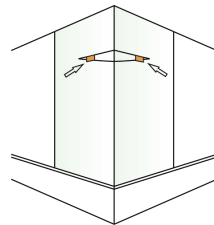

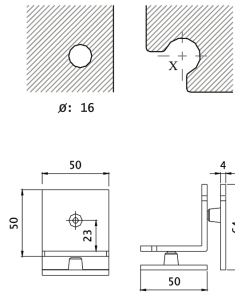

E-P

DR-PF6622
 ■ PIV
 Picaporte al cristal

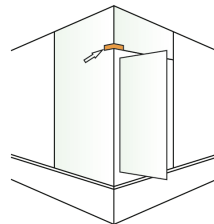

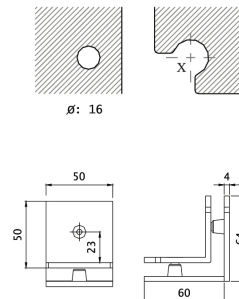

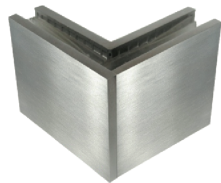

- Aplicable para espesores de cristal de 6, 8 y 10mm
- Material: Acero Inoxidable 304
- Acabado: Satinado y Pulido

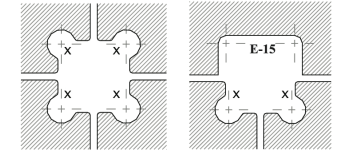

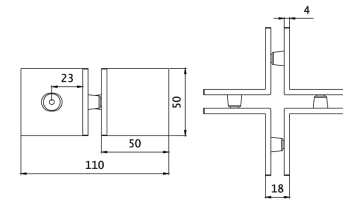

DR-SH5015A

- Unión de dos cristales en angulo

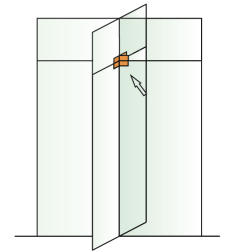

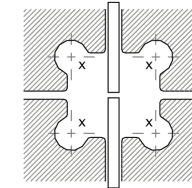

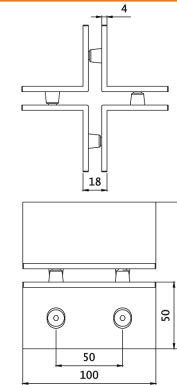

DR-SH5015C

- Unión de dos cristales en esquina

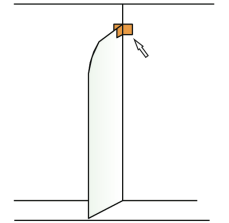

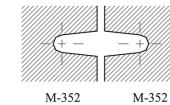

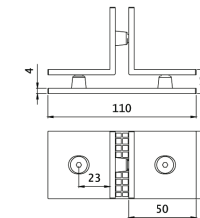

DR-PF5030

- Unión de dos o cuatro cristales con contraviento

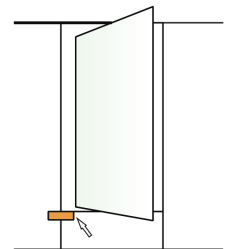

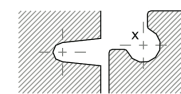

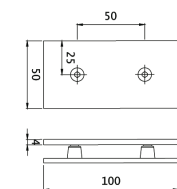

DR-PF5031

- Unión de cuatro cristales y contraviento

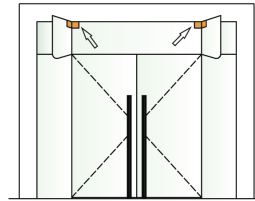

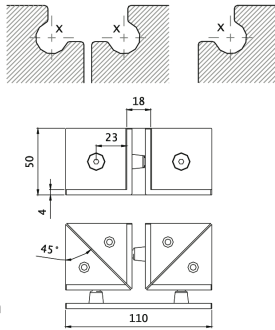

DR-PF5034

- Unión de dos cristales con contraviento

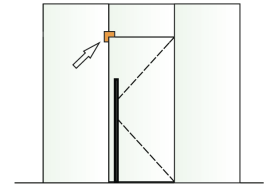

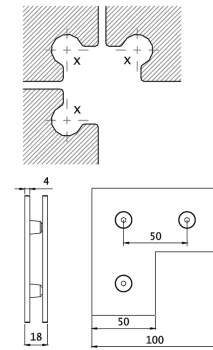

DR-SH5050

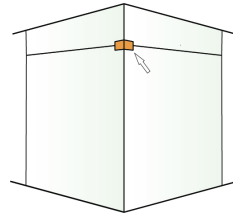

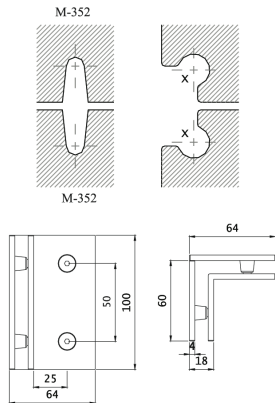

- Unión de dos cristales

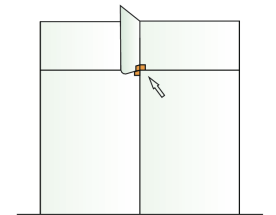

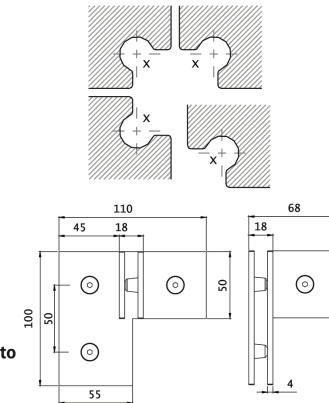

DR-PF5054
 ■ Unión de dos cristales y contraviento con fijación al piso o techo

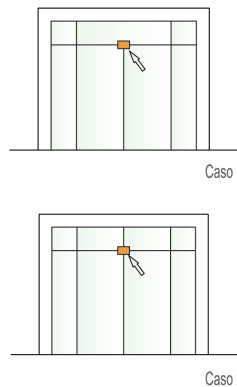

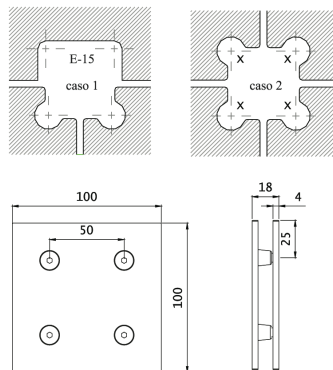

DR-PF5210
 ■ Unión de dos cristales

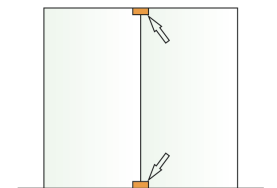

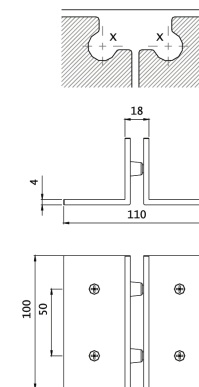

DR-PF5080
 ■ Unión de cuatro cristales en esquina

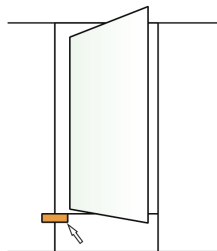

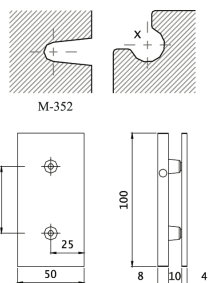

DR-PF5310
 ■ Unión de tres cristales y contraviento alto
 Disponible para Lado Izquierdo
 Disponible para Lado Derecho

DR-PF5140
 ■ Unión de tres/cuatro cristales

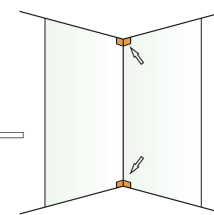

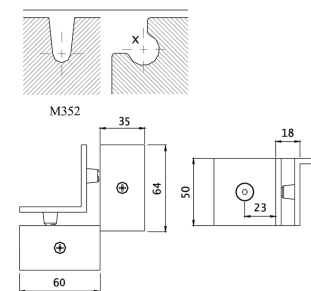

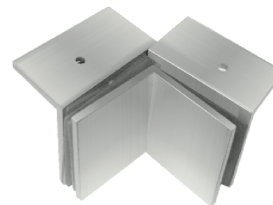

DR-PF5500
 ■ Unión de dos cristales con fijación doble al piso, techo o muro

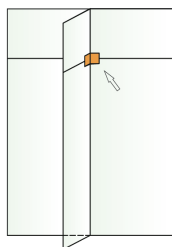

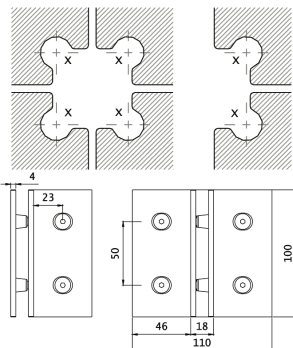

DR-PF5050 - P

■ Unión de dos cristales con perforación para pestillo
 Disponible para lado Derecho e Izquierdo

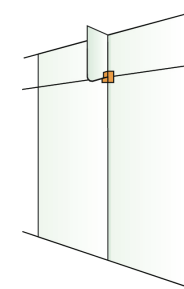

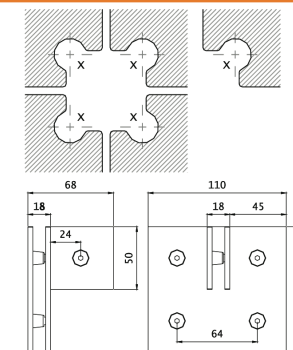

DR-PF5560A

■ Fijación simple de dos cristales en ángulos,
 al piso o techo

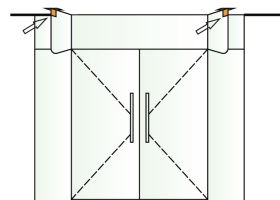

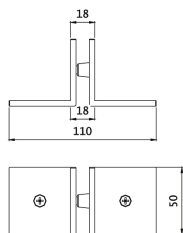

DR-PF5520

■ Unión de cuatro cristales y
 contraviento no pasante

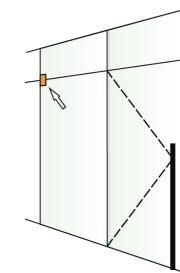

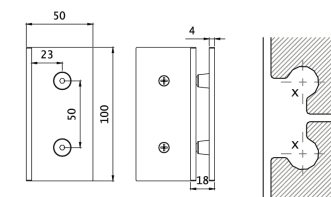

DR-PF5660

■ Unión de cuatro cristales y
 contraviento alto

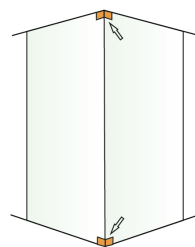

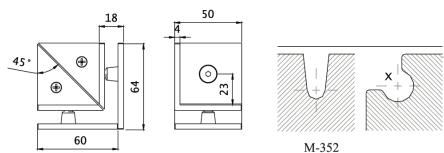

DR-PF5551

■ Fijación doble de un cristal al piso,
 techo o muro

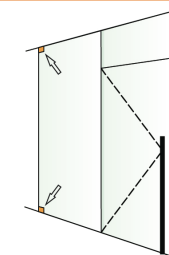

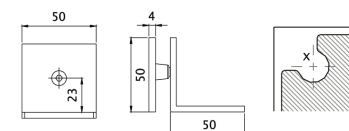

DR-SH5800

■ Unión de dos cristales con fijación simple al piso,
 techo o muro

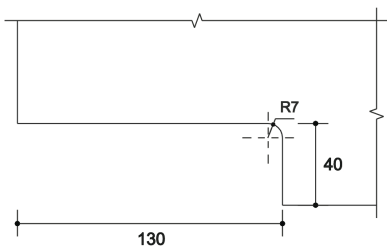

DR-SH5560

■ Fijación simple de dos cristales en ángulo,
 al piso o techo

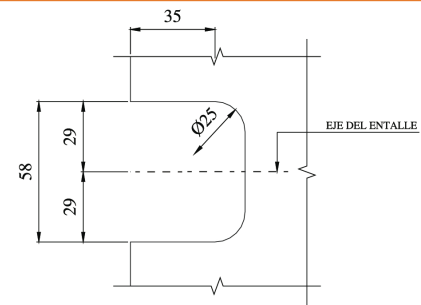

DR-SH5861

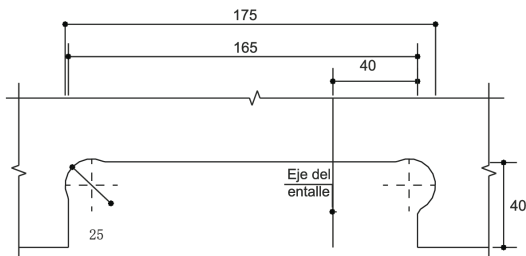

■ Fijación simple de un cristal al piso, techo o muro
